The porary injunction from the Federal courts it was said that Fogel's attorney had decided that such a move would avail nothing inasmuch as the league is not a corporation but simply a combination of ball clubs mutually agreeing to play among themselves. In fact Fogel's friends asserted last night that an injunction was unnecessary for the reason that Lawyer Shields had Lynch beaten from a legal standpoint. It was hinted by several well posted baseball men that if the league forces Fogel's hand he may produce an affidavit from a certain umpire divided \$5,000, \$2,000, \$1,490, \$1,000 and \$500. duce an affidavit from a certain umpire who has been threatening for some time to "say things." August Herrmann, president of the Cincinnati club, the big man of the league, arrived with blood in his eye. He did not attempt to beat around the bush when asked to say something about the present crisis.
